Inspections

We have visited 31 establishments this month, so far. We have found mostly signage and manufacturers' letters violations. A new class of less potent THC products is being found at regular retail stores in other communities. These are called "Delta 8" products and should only be sold at licensed marijuana establishments. I have yet to find them in Lowell retail stores.

Compliance Checks

No compliance checks conducted this month

Tobacco Permit Suspension Hearings

As previously reported to this Board, the following establishments sold tobacco to a minor during routine compliance checks conducted by the Lowell Tobacco Control Program. In addition to a \$1,000 fine, pursuant to 105 CMR 665.040(D), each establishment is subject to a tobacco permit suspension of up to 30 consecutive business days. These establishments were notified that the hearings would take place on October 6, 2021.
